CNHRPC Brownfields Assessment Program

We were pleased to hear last week that CNHRPC has been selected to receive two brownfields assessment grants from the EPA to continue work on the region's brownfields assessment program. The grants (hazardous substances and petroleum) will support environmental site assessments throughout the region, and continue to support the development of the regional brownfields inventory and community outreach. We will discuss next steps for the program at the CNHRPC Brownfields Advisory Committee meeting scheduled for June 22, 2017 beginning at 5:30pm.

2017 CEDS Update Underway

The 2017 update of the Central/Southern NH Comprehensive Economic Development Strategy began in May with the first Strategy Committee meeting held on May 24th. The meeting focused on reviewing the 2014 CEDS document, including the SWOT analysis, cluster analysis and list of projects, and how these aspects will be different in the 2017 update. New to this update is the inclusion of Manchester in the CEDS region. A subcommittee meeting will be scheduled for late June, followed by a full committee meeting in September with a target completion goal of October. Additional information on the CEDS and a copy of the 2014 document can be found on the CNHRPC [website](#).

Federal Transit Enhanced Mobility for Seniors and Individuals with Disabilities 5310 Capital Grants

NH DOT Bureau of Rail and Transit has announced the availability of funds to purchase capital (accessible vehicles or other capital equipment). Towns may apply for funding and would be required to provide a 7.5% match for vehicles. The vehicles would need to be primarily used to provide rides for seniors and individuals with disabilities. Applications are due on July 12,
